SUMMARY

Full-stack web developer and Flatiron School Software Engineering graduate who builds and ships production MERN applications, including a live e-commerce platform. Web application security experience brings systematic debugging and secure-design instincts. Seeking a junior web developer role on a team that ships real software.

TECHNICAL SKILLS

Languages JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries React, Redux Toolkit, RTK Query, Node.js, Express.js

Databases MongoDB, Mongoose, MongoDB Atlas

Tools & Platforms Git & GitHub, REST APIs, JWT Authentication, Multer, Cloudinary, Render, Netlify, WSL (Linux), VS Code

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer

May 2026 - Present

Huntley's Sauces — Full-Stack E-Commerce Platform huntleysauce.com

React · Redux Toolkit · RTK Query · Node.js · Express · MongoDB · Render

- Designed, built, and deployed a production e-commerce store for a real condiment business, covering product catalog, shopping cart, checkout, and order management end to end.
- Implemented secure authentication with JWTs in HTTP-only cookies, bcrypt password hashing, and protected/admin route middleware.
- Integrated PayPal checkout and configured a custom domain with TLS on Render, backed by a MongoDB Atlas database.
- Diagnosed and resolved live production issues across routing, environment config, and case-sensitive Linux filesystem paths.

Junior Offensive Cyber Operator — SixGen Inc. Annapolis, MD · 08/2023 – 01/2024

- Performed security testing on enterprise networks and contributed to web application security testing methodologies and threat simulations.

Associate Penetration Tester — Dot Security Lake Forest, IL · 03/2022 – 03/2023

- Conducted network and web application security assessments, documenting vulnerabilities and providing remediation recommendations.

PROJECTS

JobTracker — Full-Stack Job Application Tracker

jobtrackhq.com

React · Redux Toolkit · Node.js · Express · MongoDB

- Built a full-stack tracker where users create, update, and delete their own job applications, tracking company, role, and stage in the hiring process.
- Implemented JWT authentication with protected API routes so each user's application data stays private, with Mongoose schema validation on the server.

KR Early Learning — Full-Stack Daycare Platform

krearlylearning.com

React · Redux Toolkit · Node.js · Express · MongoDB · Cloudinary · Render

- Built and deployed a MERN daycare site with separate admin and parent portals, where admins post announcements and upload documents and parents view and download them.
- Implemented role-based access control with JWT authentication in HTTP-only cookies, restricting create and delete actions to admins through protected route middleware.

EDUCATION & CERTIFICATIONS

Flatiron School — Software Engineering Sep 2025 – Jan 2026

CompTIA Network+ and Security+
